Method: accounts.adUnits.adUnitMappings.list

◆ Page Summary ▼

List ad unit mappings under the specified AdMob account and ad unit.

This method has limited access. If you see a 403 permission denied error, please reach out to your account manager for access.

HTTP request

GET

`https://admob.googleapis.com/v1alpha/{parent=accounts/*/adUnits/*/adUnitMappings`

The URL uses [gRPC Transcoding](https://google.aip.dev/127) (<https://google.aip.dev/127>) syntax.

Path parameters

Parameters

parent	string
	Required. The parent which owns this collection of ad unit mappings. Format: accounts/{publisherId}/adUnits/{adUnitId}

Query parameters

Parameters

pageSize	integer
	The maximum number of ad unit mappings to return. If unspecified or 0, at most 10,000 ad unit mappings will be returned. The maximum value is 20,000; values above 20,000 will be coerced to 20,000.

Parameters

pageToken	string A page token, received from a previous <code>adUnitMappings.list</code> call. Provide this to retrieve the subsequent page.
filter	string The filter string that uses EBNF grammar syntax (https://google.aip.dev/assets/misc/ebnf-filtering.txt). Possible field to filter by is: "DISPLAY_NAME" Possible filter function is: IN: Used to filter fields that represent a singleton including "DISPLAY_NAME". The filter functions can be added together using AND . OR functionality is not supported. Example: filter: IN(DISPLAY_NAME, "Test Ad Unit Mapping 1", "Test Ad Unit Mapping 2")

Request body

The request body must be empty.

Response body

Response for the ListAdUnitMappingsRequest.

If successful, the response body contains data with the following structure:

JSON representation

```
{
  "adUnitMappings": [
    {
      object (AdUnitMapping (/admob/api/v1/early-access-program/reference/rest/v1alpha/accounts.adU
    },
    "nextPageToken": string
  }
```

Fields

adUnitMappings[]	object (AdUnitMapping (/admob/api/v1/early-access-program/reference/rest/v1alpha/accounts.adUnits.adUnitMappings#AdUnitMapping)) The ad unit mappings from the specified account and ad unit.
nextPageToken	string Used to set the pageToken in the ListAdUnitMappingsRequest to retrieve the next page. If this field is omitted, there are no subsequent pages.

Authorization scopes

Requires one of the following OAuth scopes:

- <https://www.googleapis.com/auth/admob.monetization>
- <https://www.googleapis.com/auth/admob.readonly>

For more information, see the [OAuth 2.0 Overview](#) (/identity/protocols/OAuth2).

Try this method

Call this method on live data and see the result.
Experiment with authorization and field settings.
