

META INTEGRATION CREDENTIALS GUIDE

I. HOW TO OBTAIN THE 4 PARAMETERS ON META

--- STEP 1: GET META APP ID & APP SECRET --- *Performed on:*
<https://developers.facebook.com>

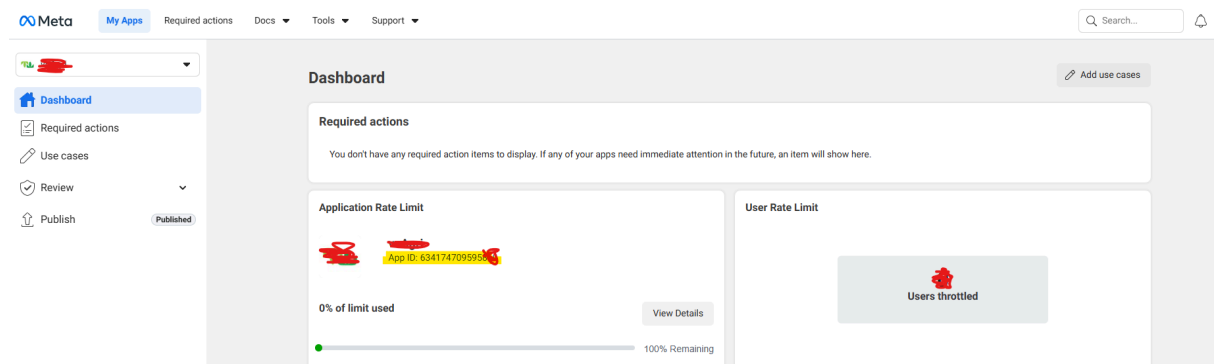

1. Log in to Meta for Developers using your personal Facebook account. 2. Select your existing App:

- Click "My Apps" in the top-right corner.
- Select the App currently used for running ads from the list.

3. Get the App ID:

- Go to App Dashboard → App ID is displayed at the top of the page (numeric string).
- Or go to Settings → Basic → "App ID" field.

4. Get the App Secret:

- Go to Settings → Basic → "App Secret" field.
- Click "Show" to reveal → Copy it.

5. Verify the App is in Live mode:

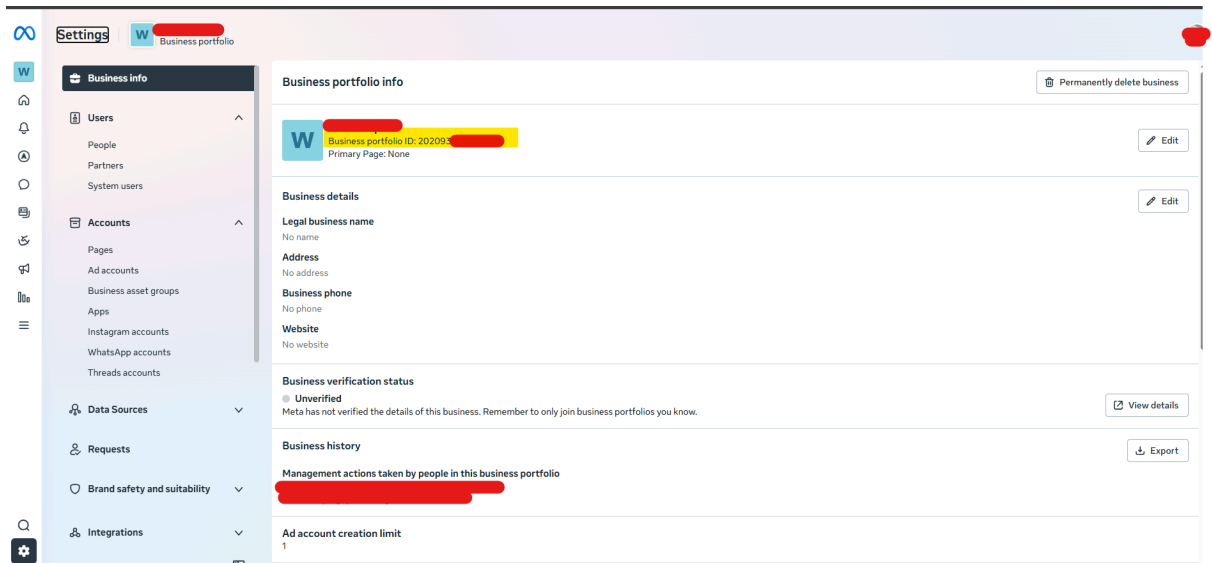

- At the top bar, confirm the toggle is set to "Live".
- If it is in "Development", switch it to "Live".

⚠ NOTE: The App must be in LIVE mode for the token to work in production. An App in Development mode will only work for the app's admin/developer/tester.

--- STEP 2: GET META BUSINESS ID --- Performed on: <https://business.facebook.com>

1. Log in to Meta Business Manager. 2. Go to Business Settings:

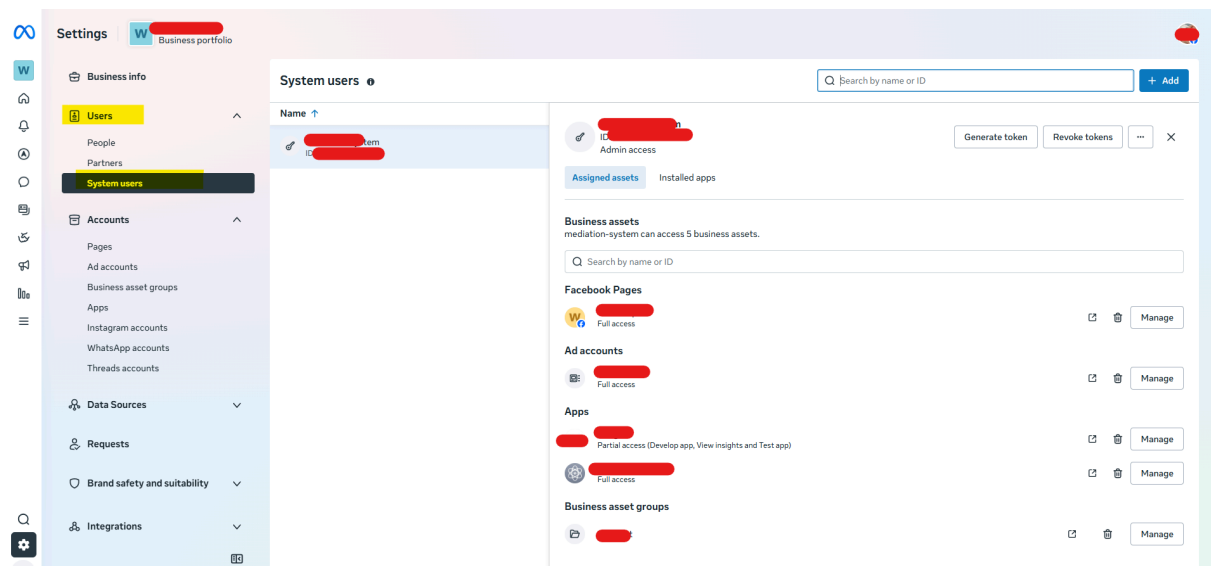

- Click the  (Settings) icon in the left menu. 3. Go to "Business Info":
- The Business ID is displayed under "Business Info" (a long numeric string, e.g., 123456789012345).
- Copy the Business ID.

--- **STEP 3: CREATE AN ACCESS TOKEN** --- Performed on: <https://business.facebook.com>

*** Recommended: Use a System User Token for production ***

1. In Business Settings, go to the left menu: Users → System Users.

2. Create a new System User (if one doesn't exist):

- Click "Add" → Enter a name → Select Role: "Admin" → Create.

Create system user

×

Enter a name for the system user you want to create below:

System user name

mediation-system

System user role
Weatherplus will be the owner of this system user.

Admin

Cancel

Create system user

3. Assign permissions to the System User:

- Select the System User you just created → Click "Add Assets".
- Assign the Ad Accounts to access → check "Full Control" → Save.

5. Copy the Access Token immediately:

- The token is only displayed once. If you close the popup without copying it, you will need to generate a new token.

⚠ NOTE:

- System User Tokens DO NOT expire (permanent token), unless manually revoked or the App is disabled.
- It is recommended to use an Admin-level System User for full permissions.
- Make sure the System User has been assigned permissions on the Ad Accounts that need data syncing.

II. CHECKLIST BEFORE SENDING CREDENTIALS TO THE INTEGRATION TEAM

- ☐ Meta Business ID copied from Business Settings → Business Info
 - ☐ Meta App ID copied from App Dashboard or Settings → Basic
 - ☐ App Secret copied from App Settings → Basic (click "Show")
 - ☐ App has been switched to LIVE mode (not Development)
 - ☐ System User has been created with Admin role
 - ☐ System User has been assigned permissions on the required Ad Accounts
 - ☐ Access Token has been generated with all required scopes:
 - ads_management
 - ads_read
 - pages_show_list (if needed)
 - pages_read_engagement (if needed)
 - ☐ Access Token has been copied and stored securely
-

III. SUMMARY TABLE
